Contact No.: 0976 561 6129 / 0908 686 7547
Address: Blk 155 Lt 13 Ph 2 Mabuhay City, Mamatid, Cabuyao, Laguna
Portfolio: https://kurtvince.github.io · GitHub: github.com/KurtVince

SUMMARY OF QUALIFICATIONS

- Computer Engineering student at STI College – Calamba with a STEM-Engineering background and a record as a consistent honor student
- Hands-on experience in microcontroller programming, stepper motor control, and power circuit setup through an Arduino-based compost monitoring project
- Completed 80 hours of OJT in an industrial department and certified as Safety Officer 2 (SO2)
- Familiar with x86 assembly, Python, and Java, with strong troubleshooting and problem-solving skills

KEY SKILLS

- Programming: x86 Assembly, Arduino C/C++, Python, Java
- Computer-Aided Design: Solid Edge CAD (Associate Level, 2025)
- Microcontrollers and Embedded Systems: Arduino Mega 2560, sensor and actuator interfacing
- Motion Control and Power: Stepper motors, DM556 stepper drivers, LM2596 buck converters, 24 V power supplies
- Tools: Emu8086, Arduino IDE, Microsoft Office (Word, Excel, PowerPoint)
- Data Encoding: Accurate data entry and records management
- Workplace Safety: Occupational safety and health practices (Safety Officer 2)
- Communication: Fluent in English and Filipino

EXPERIENCE AND PROJECTS

Encoder | Wow BESU Mamatid, Mamatid, Cabuyao, Laguna | July 2025

- Encoded data and records for the organization

Encoder (OJT) – Industrial Department | Cabuyao Medical Clinic and Pharmacy, Brgy. 3, Cabuyao, Laguna | April 2023

- Completed 80 hours of on-the-job training in the industrial department
- Assisted with records management for the department
- Manned the front information desk, assisting walk-in clients with inquiries and directions

Arduino-Based Compost Monitoring System | STI College – Calamba | 2025 – 2026

- Built a compost monitor on an Arduino Mega 2560 that controls an aerobic tumbler and an anaerobic mixer
- Drove each chamber with a stepper motor through a DM556 driver
- Set up the power system using a 24 V supply stepped down through LM2596 buck converter modules

x86 Assembly Laboratory Programs | Computer Architecture and Organization, STI College – Calamba | SY 2026–2027

- Wrote and debugged assembly programs in Emu8086 working directly with registers, memory, and DOS interrupts

CERTIFICATIONS

- Certified Safety Officer 2 (SO2)

TRAININGS AND SEMINARS

- Leadership Training | STI College – Calamba | 2025
- Youth Robotics Convention and Competition | 2021

AFFILIATIONS

- Student | STI College – Calamba | 2026

EDUCATION

Bachelor of Science in Computer Engineering, STI College – Calamba, 2023 – Present

Senior High School, STEM-Engineering Strand, Pamantasan ng Cabuyao, 2021 – 2023 · Consistent Honor Student

Junior High School, Gulod National High School, 2019 – 2021 · Consistent Honor Student

Elementary, Mamatid Elementary School, 2013 – 2016
